

**Antonio Gardoni**

Tremp stand 06

## **Tremp stand 06/Shoes fair booth, Milano/2006**

To exhibit the new shoe collection of TREMP at the "MICAM" international shoe event a specific space was created combining the warmness of wood, as a link to the tradition, with the softness of industrial felt to obtain a northern and classic mood.

The only "pop" intrusion is a wall reproducing in two dimensions a bourgeois interior that becomes the ideal backdrop for the leather products and the furniture made in black iron and felt.
