

## **Antonio Gardoni**

Dow &#038; Sambu

# **Dow & Sambu/Bio-cutlery/2007**

Concept for disposable cutlery made in 100% biodegradable material.

## **DOW**

Archetypal cutlery with a classic and familiar shape carrying different shaped holes at the end of the handle to make them recognizable even only from the handle (half open drawer) The line-hole identifies the knife, the oval one the spoon and the double cut the fork.

## **SAMBU**

Childish and primal cutlery that remark the organic and biodegradable nature of the material through a rough almost sculpted shape.
