

Antonio Gardoni

Boysloft

Boysloft/Brescia/2004

Boysloft, conceived as a kind of apartment and recently renovated by architect Antonio Gardoni.

The encounter between Roberta Valentini and Gardoni completes the idea of a space that goes far beyond the idea of a store and becomes a place where you can meet and find a T-shirt, a dress, an object or simply just stand and admire.

(Tools, Summer 2004)
